Tucker Environmental Pty Ltd (ABN 90 624 371 660) operates this website. These terms apply to your use of the site, including its articles, resources, forms and Credit Portfolio.

Website information and professional services

We publish general information about biodiversity offsets, Australian Carbon Credit Units (ACCUs), agricultural assessments and related environmental matters. Requirements and project circumstances can change. Before making a planning, procurement, investment or land-use decision, check current requirements and obtain advice suited to your circumstances.

An enquiry or scoping call starts a discussion about your needs. If we agree to provide services, the written scope and engagement terms govern that work.

Credit Portfolio

The Credit Portfolio lists indicative biodiversity credit opportunities. Quantities, availability, project status and suitability can change. Listings for projects in development may depend on assessment, approval or issuance.

Before committing to a transaction, confirm availability and status with us and check the relevant register, credit attributes and matching requirements. A reservation or transaction requires separate written confirmation. NSW biodiversity credit registers
